1. Why is your school named this way?

Our school was established as Junior High School No. 164 with Integration Departments and on September 1, 2009 opened its doors to students. In 2012, as a result of consultations of class teams, educators, the entire pedagogical council and parents, it was decided that the Polish Olympians would become the patron of our school. Science and sport are areas that connect a lot, and the motto "faster, higher, stronger" great in its message, but also beautiful in its simplicity, can play a special role in education. Our students want to cross barriers every day, overcome their weaknesses, improve the chart of the spirit and body; therefore, we wanted the Olympic ideas to become a model for comprehensive development.
